

LAFARGE EAGLEBOND® PORTLAND AND LIME

bringing materials to *life*™

The choice for performance

Lafarge Eaglebond Portland and Lime is a controlled blend of portland cement and Type S hydrated lime. Lafarge Eaglebond Portland and Lime is available in natural grey. However, in case your project calls for a special custom-blended shade, we'll be glad to develop one. Lafarge Eaglebond Portland and Lime is available in Types N, S and M and exceeds all applicable ASTM, IBC and ACI-530 specifications.

Lafarge Eaglebond® Portland and Lime

The following is a general guide for selection of mortar type. Other factors such as type and absorption of masonry units, climate and exposure, applicable building codes and engineering requirements should also be considered.

Recommended Guide For Selection Of Mortar Type

Building Segment		Mortar Type
Exterior		
Above grade		
	Load-bearing	S
	Non-load-bearing	N
	Parapet wall	S
Exterior		
At or below grade		S or M
Interior		
	Load-bearing	S
	Non-load-bearing	N

Colors

Lafarge Eaglebond Portland and Lime is available in natural grey. Custom colors are available on request.

Precautions

Direct contact with wet cement should be avoided. If contact occurs, the skin should be washed with water as soon as possible. Exposure can cause serious, potentially irreversible tissue destruction in the form of chemical (caustic) burns. If cement gets into the eyes, immediately rinse thoroughly with water and seek medical attention. For more information, reference the applicable Lafarge Material Safety Data Sheet (MSDS). The MSDS should be consulted prior to use of this product and is available upon request and online at www.lafarge-na.com.

Limited Warranty

Lafarge warrants that Lafarge Eaglebond Portland and Lime meets the requirements of ASTM C 150 for portland cement and ASTM C 207 for Type S hydrated lime. Lafarge makes no other warranty, whether of merchantability or fitness for a particular purpose, with respect to Lafarge Eaglebond Portland and Lime. Having no control over its use, Lafarge will not guarantee finished work in which Lafarge Eaglebond Portland and Lime is used.

Product Name

Lafarge Eaglebond® Portland and Lime:
Types N, S and M

Manufacturer

Lafarge North America Inc.
Lafarge Building Materials Inc.
12018 Sunrise Valley Drive
Suite 500
Reston, VA 20191

Product Description

Lafarge Eaglebond Portland and Lime is a controlled blend of portland cement and Type S hydrated lime. The portland cement complies with ASTM specification C 150 and the Type S hydrated lime complies with ASTM specification C 207.

Technical Data

Applicable Standards: Lafarge Eaglebond Portland and Lime conforms to the proportion requirements of ASTM C 270, Table I and exceeds the property requirements of ASTM specification C 270, provided the sand used conforms to ASTM specification C 144.

Physical Properties

Lafarge Eaglebond Portland and Lime provides an excellent level of performance in the functional areas of workability, compressive and flexural strength, water permeance, durability and appearance.

Limitations

Lafarge Eaglebond Portland and Lime is designed to be mixed with mason's sand and clean, potable water to produce an ASTM C 270 mortar for unit masonry.
